Television Production

*For High School Students
Interested in Broadcasting Careers*

Television Production

This course prepares students to support broadcast managers in the production of materials and programs for broadcasting. But that's not all!

TVP students will learn communication, technology and production skills that will help take them directly into the job market or give them a head start on college.

Students will have opportunities to showcase their work on local channels, including KPLC TV through the 7 Teen Reports; on the Academy TV web site; at public events; and in state and national competitions. TVP students will also learn about legal and ethical issues and job seeking skills. Written and oral communication skills will be reinforced through script writing and on-camera performances.

Television Production students will:

Report and anchor newscasts

- Conduct research and interviews

Shoot, write and edit:

- News stories
- Public service announcements
- Commercials
- Music videos
- Other TV programming

Operate:

- Hand held and studio cameras
- Audio mixers
- Switchers
- Lights
- Microphones
- Non-linear editing system

Showcase video projects:

- Local channels
- KPLC 7 Teen Reports
- Academy TV web site
- Public events
- State and national contests

3 hours credit/transportation provided

Friends of Academy TV

YES, I want to help support the Television Production program at LCB Academy of Learning!
